## A GLOBAL REVIEW OF CUSTOMS PRACTICES AND DOCUMENTATION REQUIREMENTS

Why do shipments get stuck and payments delayed around the world? What are the key components to International transactions and documents that allow shipments to clear customs quickly around the world. We will take a look at the fundamental components that should be addressed with every export to give your shipments a high probability of moving through the importation process overseas smoothly. We will focus on a few countries that are particularly problematic, and share some specific shipment case studies on the challenges that occurred and remedies that were needed to solve the issues. A Trade Wars update will also be given as well as some perspective on changing export and supply chain strategies in response to trade wars and tariffs both in the USA and abroad.

Following the meeting, we hope you'll take the time to visit the grounds of the Bubolz Nature Preserve. For more than 45 years, Bubolz Nature Preserve has been inspiring generations. A 2015 study for the National Academy of Science found that a simple walk in nature can physically change brain activity, leading to better mental health. Another study by Stanford University found that being in nature improved mood, cognitive function, memory and reduced the effect of anxiety and depression. Plan on talking a walk!
